INTRODUCTION

M/s. Tanishka Building Solution is a Ghaziabad based organization specializing in **Pre-Engineered Building, Solar Mounting Structure Power House Structure, Petrol Pump Structure, Cold Store Structure, Roofing and False Ceiling**. It was founded in late 2018, and has already been started penetrating the Industrial market with full swing. **TBS** promoters started their career in early 2018, and today they are the major suppliers of Architectural product to big houses.

TBS today has succeeded in carving a niche for itself in the fast growing **PEB, Roofing and False Ceiling** business. The Company operates from its corporate office located at **F-229-230, UPSIDC, Phase-1, M G Road Masuri, Hapur**

The organization has grown manifold since its inception because at the crux of all its operations, is a culture where we do not make compromise with Quality in our products and services. Needless to say this would have been a herculean task had it not been for our dedicated team of young and dynamic professionals.

TBS is an organisation, waiting in the wings to take off. TBS represents a highly professional and pragmatic approach and our motto is to give full satisfaction to our esteemed customer with best services in architectural products. Our Vision and the strategy is to continuously broaden and enhance the product line so as to offer increasingly versatile design applications to Pre-engineered building, Roofing system and False ceiling.

TBS works are fully equipped with all modern and hi-tech facilities naming few like SAW welding for H-Beam, Hi-Rib roofing Machine, Clip Lock Machines are used to achieve the Quality product.
